

June 13, 1927.

Mr. Wallace Case,
Emery, Utah.

Dear Sir;

RE: MUDDY CREEK DIST.

As a result of a formal petition lodged in this office and after consultation with the water users on Muddy Creek I am appointing you water commissioner for Muddy Creek for the present season and enclosing your formal appointment.

It is my understanding that you are to receive a compensation from the district of \$25.00 a month and that three months of such compensation or a total of \$75.00 is satisfactory.

I hope that by reasonable cooperation between the Independent Canal people and the Emery people you will be able to look after matters in the district without too many difficulties arising.

I am enclosing a copy of my memo in re Muddy Creek distribution as a result of my field examination made on June 2, 1927, and trust that this is plain and covers the situation as is generally understood. Under the law the water commissioners are required to file a bond with the State Engineer and I am also enclosing blank form of bond in the sum of \$500 which I would ask you to have executed and return to the office at your early convenience.

Yours very truly,

State Engineer.
